

ESTAPARKET offers limited warranty 30 years.

All stages in parquet production starting from drying of wood to final packaging are carried within our factory to ensure the highest quality of end product.

General Guarantee Conditions

Thirty years guarantee is valid, when ESTAPARKET wood flooring has been laid for private use and in accordance with the manufacturer's instructions. Failure to install in accordance with the instructions will void all warranties. We urge you and your installer to inspect each plank prior to installation. In the unlikely event that you encounter a visually defective plank prior to its installation, we will replace it free of charge. Simply return it with your receipt to your retailer for your free replacement. Technomar & Adrem AS reserves the right to rectify faulty flooring or to have it rectified by a third party, or to exchange it. If the flooring is to be exchanged, the manufacturer has the right to determine the way it is to be returned. The cost of the repair will be refunded only if the matter has been agreed beforehand and will cover only the floor materials and repair work, not additional expenses.

Installation Guarantee

We guarantee our floor installations for long-lasting performance, provided the floors are installed to manufacturer's guidelines using approved applications.

Moisture Warranty

If installed and maintained in strict accordance with our instructions, we guarantee our floors against damage, caused by normal moisture and air conditions. **IT IS CRITICAL THAT BEFORE INSTALLATION, ALL SUBFLOORS ARE INSPECTED AND TESTED FOR DRYNESS OR MOISTURE PROBLEMS IN ACCORDANCE WITH ALL INSTALLATION INSTRUCTIONS.**

Should our flooring fail under normal moisture conditions, we shall, at our option, repair or replace the damaged flooring one time, exclusive of the costs of refinishing.

Radiant Heat Warranty

ESTAPARKET wood flooring can be installed over underfloor heating. Manufacturer's specific laying instructions should be followed. The temperature of the wooden floor surface should not exceed 27°C or 81°F.

Indirect Damage

Claims of indirect damages are excluded without exception.

Exclusions

Wood is a natural and living product and variations in color, grain pattern and/or texture normally occur in the original materials and are not defects and no warranty shall apply thereto. Installed flooring will change in colour over time, and this is also a natural characteristic of wood products for which no warranty is provided. Exposure of all portions of the installed flooring to direct sunlight may cause variations in colour and such variations in colour are not covered by warranty. We cannot warrant against natural variations, nor the normal minor differences between colour samples and the colour of installed floors.

In order to maintain the recommended relative humidity (40%-60%) inside the home, installation of the humidifier or dehumidifier may be necessary. The floor is designed to perform in an environmentally controlled structure. Any exposure to excessive heat or moisture may cause damage to the flooring and is not covered by warranty regardless of cause and source.

Damage due to water saturation (including but not limited to) a leaky tap, broken pipe and wet mopping is excluded.

We will not assume responsibility for damage caused directly or indirectly by misuse, abuse, accident or use that is not consistent with our ESTAPARKET Installation Guide. Accordingly, no warranty, expressed or implied, is provided for any damage due to inadequate care or other causes noted in our ESTAPARKET Installation Guide or Care Guide, including stains, damage caused by heavy items, by impact, scratches, scarring, denting, spike heels, spills and standing water etc. The warranty does not cover scratches or stains caused by domestic pets.
